

1. Various basic shapes can be used to make wheel discs.

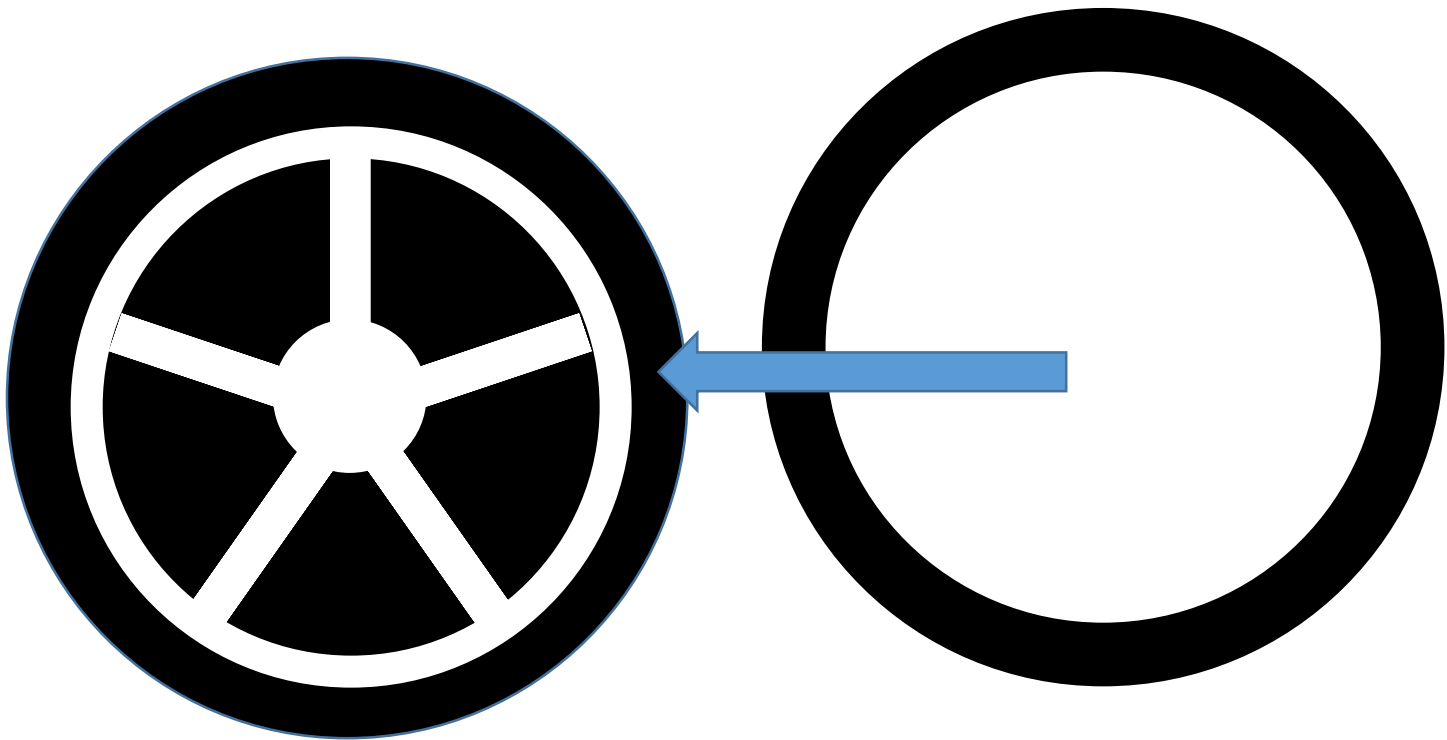

2. Adjust the shape to have line remaining.

3. Insert 9cm(black) , (7cm Black/white outline)and
2cm (White) circles

4. Align 5 or 6 point star inside 7cm circle and colour it white. Use the line fill to increase the line weight of star to 15pt +-

Enlarging the line weight cause them to grown Use the doughnut shape to fill in the outer band, Copy to MS Paint and make an image for use as disc.
